

# How to be in Action

Energy Swaraj Club

# Actions to be performed among the club members.

- Conduct **weekly meetings**.
- All the members should become **Energy Literate**.
- All the club members should start following the rule of **AMG** - Avoid, Minimize & Generate energy locally.

## Further activities can be done by the clubs. 1/2

- Encourage masses in your **locality** and **different departments** of institution to become Energy Literate.
- Spread the **awareness** and promote AMG rule to maximum people.
- While conducting the meeting there should be **discussion** on **environment change**.

## Further activities can be done by the clubs. 2/2

- It is suggested that studies of **climate change's effects** on different parts of the country and around the world should be **discussed**.
- Participate in **ARE Conference and Awards**, by Energy Swaraj Foundation.
- Encourage other people to **form clubs** in their locality.

# Creative Ideas for the club activities 1/3

- **Visit the schools and other organizations** in your locality and encourage people to take up the Energy Literacy Training.
- Organise various unique **competitions** which lead to climate change awareness.
- The competition can be story writing, comics and posters, blogging, vlogging, etc.
- **Organise plays** with a powerful message on environment change and its effects.

## Creative Ideas for the club activities 2/3

- Create a **social media page** for your Energy Swaraj Club.
- Post the club's activities on social media and **share with Energy Swaraj**.
- Study about **sustainable** energy and **promote** the use of Sustainable energy.
- Encourage people to **use solar products**.

## Creative Ideas for the club activities 3/3

- Organise **seminar, programme** for learning and understanding of solar installations and use in your locality.
- Make your locality **energy sufficient** by installing solar plants.
- Set up an example by **generating energy locally** in your institutions by use of solar plant.
